## Chair of EAFONS

**Professor Mari Ikeda**  
Chair, East Asian Forum of Nursing  
Scholars (EAFONS)  
The University of Tokyo, Japan

Dear Colleagues, Scholars, and Friends,

It is with great pleasure and deep appreciation that I welcome you all to the upcoming East Asian Forum of Nursing Scholars (EAFONS) Conference. This year, we gather in Singapore, a dynamic hub of innovation and cultural diversity, and a fitting setting for our theme: “Innovate, Integrate, Inspire: Advancing Nursing Excellence in the Digital Era.”

In a time of unprecedented technological transformation, our mission as nursing scholars and practitioners has never been more critical or more promising. Innovation is no longer optional. Integration of new knowledge, digital tools, and interdisciplinary collaboration is essential. And above all, we must continue to inspire one another, across borders, across generations, and roles in education, practice, and research.

At EAFONS, we firmly believe that nurses make the difference, not only at the bedside, but in policy-making, system design, and shaping the future of healthcare in Asia and beyond. This conference is a celebration of that impact. It is also a call to action.

As Chair, I hold a deep commitment to empowering early-career researchers and clinical practitioners, especially across Asia. Their energy, creativity, and dedication are the driving force of our profession’s future. Through this Forum, we aim to foster a community that nurtures these voices, strengthens regional collaboration, and advances doctoral education that is both rigorous and relevant.

Let us use this gathering to challenge old assumptions, build new bridges, and share knowledge that will truly transform nursing care. Whether you are presenting your first research paper or sharing decades of wisdom, your contribution matters.

Singapore

We are delighted to welcome you to the 29<sup>th</sup> East Asian Forum of Nursing Scholars (29<sup>th</sup> EAFONS 2026), hosted at the University Cultural Centre, National University of Singapore, Singapore.

Under the theme “Innovate, Integrate, Inspire: Advancing Nursing Excellence in the Digital Era,” this year’s forum brings together an extraordinary community of over 1,800 participants from more than 40 countries and regions. You represent a vibrant global network of nursing scholars, educators, clinicians, and postgraduate students, united by a shared commitment to advancing nursing science and improving health for all.

We are honoured to be joined by our distinguished keynote and plenary speakers, Professor Kenrick Cato (University of Pennsylvania, USA), Professor Peter Griffiths (University of Southampton, UK), Professor Frances Lin (Flinders University, Australia), and Associate Professor Kevin Yap (La Trobe University, Australia), whose collective expertise will inspire new perspectives on digital innovation, health systems, and the future of nursing.

In addition to keynote and plenary speeches, this year’s rich and diverse programme features symposia, oral presentations, physical posters, e-posters, and PhD roundtable discussions. We hope that 29<sup>th</sup> EAFONS 2026 is more than a conference - it is a community that fosters connection, collaboration, and inspiration through your dedicated participation and contributions.

In an era where digital transformation is reshaping education, research, and healthcare, we trust that 29<sup>th</sup> EAFONS 2026 will provide you with a vital platform to spark ideas, forge partnerships, and reimagine the future of nursing. Together, let us explore bold innovations, embrace meaningful technology integration, and inspire one another toward a shared vision of excellence and impact.

I sincerely wish you a joyful, enriching, and fruitful conference experience in Singapore.

## Co-Chair of 29<sup>th</sup> EAFONS 2026

**A/Prof Wilson Tam Wai San**  
Co-Chair, 29<sup>th</sup> EAFONS 2026  
Deputy Head (Research)  
Alice Lee Centre for Nursing Studies  
Yong Loo Lin School of Medicine  
National University of Singapore  
Singapore

Dear Esteemed Colleagues and Guests,

Welcome to 29<sup>th</sup> EAFONS 2026!

It is with immense pleasure that I extend my warmest greetings to you on behalf of the Organising Committee and Alice Lee Centre for Nursing Studies, National University of Singapore. United by this year's theme – Innovate, Integrate & Inspire: Advancing Nursing Excellence in the Digital Era – we gather for a conference designed to shape the future of nursing education, practice, and research.

We stand at a pivotal moment for our profession, where digital transformation intersects with the core values of compassionate and evidence-based care. Over the conference, we will explore groundbreaking advances that are redefining how nurses learn, lead, and deliver care – ranging from artificial intelligence and data-driven decision-making to simulation-enhanced education, virtual care models, and digitally enabled interprofessional collaboration. Our agenda is rich with keynotes, plenaries, symposiums, and workshops tailored to equip you with actionable insights and skills you can bring back to your institutions and communities.

You will have the opportunity to engage with distinguished national and international experts, participate in thought-provoking dialogues, and witness innovations that are already improving patient outcomes, educational quality, and system efficiency. Just as importantly, EAFONS is a forum for forging meaningful connections. The relationships you build here can spark collaborations that advance scholarship, strengthen clinical impact, and foster leadership across the region and beyond.

I encourage you to engage deeply with the content and with one another. Let us challenge assumptions, share best practices, and co-create solutions that are ethical, inclusive, and sustainable – ensuring technology serves humanity and elevates the art and science of nursing.

In closing, I am excited to embark on this journey with you. Together, let us innovate, integrate, and inspire—advancing nursing excellence in the digital era. Thank you for being here, and I look forward to an energising and impactful conference.

## HoD, NUS Nursing

**Professor Liaw Sok Ying**

Head

Alice Lee Centre for Nursing Studies  
Yong Loo Lin School of Medicine  
National University of Singapore  
Singapore

On behalf of the Alice Lee Centre for Nursing Studies, Yong Loo Lin School of Medicine, National University of Singapore, I am honoured to welcome you to Singapore and to our campus for the 29th East Asian Forum of Nursing Scholars (29<sup>th</sup> EAFONS 2026).

As the host institution, we are deeply proud to open our doors to colleagues and partners from across the region and beyond. 29<sup>th</sup> EAFONS 2026 is a meaningful opportunity for us to strengthen academic friendships, build new partnerships, and learn from one another as we work together to advance nursing education, research, and practice in an increasingly digital world.

The conference theme, “Innovate, Integrate, Inspire: Advancing Nursing Excellence in the Digital Era,” resonates strongly with our school’s commitment to preparing future-ready nurses and scholars who can lead change while remaining grounded in compassionate, person-centred care. We see this forum as a space not only to share knowledge, but also to cultivate trust, exchange experiences, and co-create solutions for the complex health challenges facing our societies.

We are sincerely grateful to the 29<sup>th</sup> EAFONS 2026 Executive Committee, Organising Committee, Scientific Committee, moderators, speakers, and participants, whose dedication has made this conference possible. Your presence reflects a shared belief in the power of collaboration and the importance of nurturing the next generation of nursing leaders.

I hope that your time at NUS will be intellectually stimulating, professionally enriching, and personally meaningful. May the conversations and connections formed here continue long after the conference concludes.

Welcome to NUS. Welcome to Singapore.

## Senior Vice Provost, NUS

**Professor Bernard Tan Cheng Yian**  
Senior Vice Provost  
(Undergraduate Education)  
National University of Singapore

It gives me great pleasure to extend my warmest congratulations to NUS Nursing for hosting the 29th East Asian Forum of Nursing Scholars (29<sup>th</sup> EAFONS 2026).

The theme, "Innovate, Integrate, Inspire: Advancing Nursing Excellence in the Digital Era," reflects a timely and thoughtful response to the evolving healthcare landscape. As nursing continues to play a pivotal role in delivering patient-centred, safe, and high-quality care, platforms such as this conference are essential for advancing professional knowledge, leadership, and innovation. I look forward to the robust exchange of ideas and the meaningful contributions this forum will make to the nursing community.

I would also like to express my sincere appreciation to all keynote speakers and presenters for their generous contributions. Their expertise and dedication to advancing nursing practice provide valuable perspectives for participants and greatly enrich the programme. In addition, the diverse range of workshops and activities planned will ensure that every participant gains new insights into nursing in the digital era.

I wish 29<sup>th</sup> EAFONS 2026 every success and trust that it will be a rewarding and fulfilling experience for all.

# ABOUT EAFONS

The **East Asian Forum of Nursing Scholars (EAFONS)** was initiated in 1997 by Professor Ida Martinson and her colleagues, School of Nursing (formally the Department of Nursing and Health Sciences), The Hong Kong Polytechnic University. Seven countries/regions (Hong Kong, South Korea, Singapore, Thailand, Philippines, Taiwan, and Japan) were the founding members of EAFONS.

EAFONS aims to provide a regular regional forum for doctoral-prepared nurse academics and their students. Yearly forums have been held since 1997.

# ABOUT NUS NURSING

Established in 2005, the Alice Lee Centre for Nursing Studies, Yong Loo Lin School of Medicine, National University of Singapore (NUS Nursing) is the first Nursing department set up in a tertiary institution in Singapore. As the nation's only institution offering an undergraduate nursing programme for both A-level holders and polytechnic graduates, NUS Nursing provides a full spectrum of academic pathways, spanning baccalaureate to doctoral degrees, which shape the next generation of nursing leaders, educators, and researchers.

NUS Nursing is internationally recognised for its academic excellence and research impact, consistently advancing the discipline of nursing in Asia and beyond. In the QS World University Rankings by Subject 2025, NUS Nursing is ranked 8th globally, underscoring its commitment to world-class education and research.

Guided by its mission to nurture nurses who advocate for health for all, NUS Nursing strives for excellence in nursing education, pioneers innovative and impactful research, and serves communities with compassion, humility, and integrity.

## Keynote Speaker

## Can Nursing Instincts be Modeled by AI?

**Kenrick Cato, PhD, RN, CPHIMS, FAAN, FACMI**

*Professor of Informatics, Penn Nursing, University of Pennsylvania, USA*

**Moderator:**

*Assoc. Prof Shefaly Shorey, National University of Singapore, Singapore*

### BIOGRAPHY

Professor Kenrick Cato is a Professor of Informatics at the University of Pennsylvania and at Children's Hospital of Philadelphia. Dr. Cato's work spans various aspects of clinical informatics, emphasizing integrating data science to enhance patient care and reduce operational burdens in healthcare settings.

### ABSTRACT

In this Keynote, Professor Kenrick Cato will share his lessons from more than a decade of applying data science to model nursing behaviour. The CONCERN Early Warning System will be highlighted to show how nursing "instinct" can be modeled to predict in-hospital patient deterioration and enhance outcomes, including reduced mortality and length of stay.

## Safe Staffing and the Search for the 'Magic Number'

**Peter Griffiths, PhD**

*Visiting Professor, National University of Singapore  
Senior Investigator (Emeritus) National Institute for Health and Care Research  
Editor in Chief, International Journal of Nursing Studies  
Chair of Health Services Research, University of Southampton, UK*

**Moderator:**

Dr. Vivien Wu, National University of Singapore, Singapore

### BIOGRAPHY

Professor Peter Griffiths is Chair of Health Services Research at the University of Southampton, England, an emeritus and a Senior Investigator of the United Kingdom's National Institute for Health Research (NIHR), a Visiting Professor at the National University of Singapore and a Visiting fellow of the Centre for Health Outcomes and Policy Research at the University of Pennsylvania USA. He is also Editor-in-Chief (elect) for the International Journal of Nursing Studies. He has worked closely with the NHS in England and the World Health Organisation to develop guidance on safe staffing. His research on safe staffing has influenced policy and practice around the world.

### ABSTRACT

Research exploring associations between nurse staffing and patient outcomes is among the most highly cited and talked about health services research. Although the conclusions seem clear - having more nurses is linked to better patient safety - the implications are not universally accepted. Is there a 'magic number', as implied by calls for mandatory minimum staffing levels, and can such a number be derived from the research? In this keynote Professor Griffiths will consider this and other questions and address the challenges of translating this body of research into action.

## From Bedside to Botside: Can Nightingale's Lamp Shine in a Black Mirror World?

**Kevin Yap**

*Adj Associate Professor in Digital Health, School of Psychology and Public Health, La Trobe University, Australia*

**Moderator:**

Assoc. Prof Zhou Wentao, National University of Singapore, Singapore

### BIOGRAPHY

Associate Professor Kevin Yap is an interdisciplinary digital health strategist, healthcare innovator, and cyber-pharmacist. His research spans virtual care, extended reality, metaverse, serious games, AI, clinical predictions, sustainable healthcare, and digital health humanities. With over 100 journal and book publications and over 100 talks, his work has earned prestigious global awards – including US Reimagine Education Awards, Pharmaceutical Society of Singapore–Pfizer Innovation Award, and Health 2.0 Outstanding Leadership Award. Featured in The Straits Times, Lianhe Zaobao (Singapore's Chinese newspaper), Australia's Digital Health Cooperative Research Centre Newsletter, and The Australian News, Kevin also reviews for numerous international journals, grants and conferences.

### ABSTRACT

The Netflix series "Black Mirror" – representing our dark phone screens – has become symbolic of technology's dystopian potential to control rather than empower. AI isn't sci-fi anymore. It analyzes patient data, predicts outcomes and influences clinical decisions. But are we looking in the wrong mirror? As we move from bedside to botside, can Florence Nightingale's core values – compassion, advocacy and humanistic care – shine brighter through AI partnership? This talk explores how AI has transformed healthcare and how we can harness tech innovations as tools to amplify our healing mission. The future is ours to write – will it be dystopian or transformational?

## Collaborating for Greater Impact in the Digital Age

### Frances Lin, PhD

*Director, Caring Futures Institute; Dean Research, College of Nursing and Health Sciences, Flinders University, Australia*

#### Moderator:

Assoc. Prof Piyanee Yobas, National University of Singapore, Singapore

### BIOGRAPHY

Professor Frances Lin is Dean Research, College of Nursing and Health Sciences, and Director, Caring Futures Institute at Flinders University. She leads multidisciplinary research focused on improving patient care and service delivery in acute and critical care, with a current emphasis on addressing ICU bed block challenges. She collaborates closely with clinicians, consumers, and government bodies, and is a committed mentor to emerging researchers. Frances is Associate Editor of Intensive and Critical Care Nursing and Chair of the ACCCN Quality Advisory Panel. Her work builds nursing research capacity and fosters strong partnerships locally and globally.

### ABSTRACT

Collaboration in research, especially nursing research, is becoming increasingly important to share knowledge, promote learning and understanding, and generate high-quality evidence that is relevant to the international community. Through examples of collaborative work, I will demonstrate how we built an international team and network, and how modern technologies can help to make that happen.

## Symposium 1:

### Digital Innovations Transforming Nursing Practice

<b>Date:</b>	27 February 2026
<b>Time:</b>	11:00 - 12:30
<b>Venue:</b>	Level 1 - Ho Bee Auditorium
<b>Moderators:</b>	<b>Dr Jocelyn Chew Han Shi</b> , National University of Singapore, Singapore <b>Prof Yeo Jin Im</b> , Kyung Hee University, South Korea

Time:  
11:00 - 11:15

#### Digital Cognitive Training Intervention for High-Risk Adults with 3 Highs: Implementation and Early Insights

**Dong Yanhong, Catherine, PhD (Med), RN, FAAN**

Assistant Professor, Alice Lee Centre for Nursing Studies, Yong Loo Lin School of Medicine, National University of Singapore, Singapore

Dr. Dong is the first Nurse Clinician Scientist fully funded by Singapore National Medical Research Council (NMRC) for a cutting-edge clinical research program "Heart-Brain Connection". She has cross-disciplinary educational and clinical background in Nursing and Clinical Neuropsychology. Her research expertise includes neurocognition, brain training, and the heart-brain connection. She has established the "Train Your Brain" cognitive training programme for Singaporean older adults with mild cognitive impairment, adapted it to stroke survivors in the community and patients with "3 Highs" in primary care.

Time:  
11:15 - 11:30

#### Beyond Nursing Records: Harnessing Care Data for Transformative Oncology Practice

**Eunyoung E. Suh, PhD, RN**

Professor, College of Nursing, Seoul National University, Korea

Professor Eunyoung Eunice Suh, PhD, RN, earned her doctoral degree from the University of Pennsylvania and is currently a distinguished faculty member at Seoul National University College of Nursing. With 10 years of clinical experience and 20 years as a professor, she has led advancements in cancer care and nursing education. Her research spans cancer symptom management, caregiver support, body image in breast cancer, nurse navigation programs, and resilience in life-limiting illness. She pioneers innovations such as mobile health applications, drama-combined education, and care-centered data analytics, integrating scientific rigor with compassionate, patient-centered care while mentoring future global nursing leaders.

#### Advancing Resilience and Well-being in Perinatal Mental Health Through Innovative Nursing Practice

##### **Siti Roshaidai Mohd Arifin, PhD**

Professor and Head of Research and Innovation at the Kulliyah of Nursing, International Islamic University Malaysia, Malaysia

Dr. Siti Roshaidai Mohd Arifin is a Professor and Head of Research and Innovation at the Kulliyah of Nursing, International Islamic University Malaysia, as well as a Visiting and Adjunct Professor at institutions locally and internationally. She holds a PhD in maternal mental health from the University of Stirling, UK. An accomplished scholar, she has authored multiple books and numerous publications, secured competitive research grants, and received over 30 awards, including the prestigious High Impact Responsible Research Award. A sought-after speaker at national and international platforms, she is dedicated to mentoring postgraduate students and advancing professional and research excellence.

#### The potential of Digital Twin Technology in Home Care Nursing

##### **Keiichi Shimatani, PhD (Med)**

Lecturer, Department of Home Health and Palliative Care Nursing, Graduate School of Health Care Sciences, Institute of Science Tokyo, Tokyo, Japan

Dr. Keiichi Shimatani earned his PhD in Medicine from Kagoshima University and has served as a Project Assistant Professor at Chiba University since 2022, and as a Project Lecturer at the Institute of Science, Tokyo since 2024. His research focuses on how environmental and social factors, such as housing conditions, shape health and well-being, particularly in aging populations. He also investigates how sensor-based data can be used to detect early functional decline in home care patients, aiming to develop evidence-based strategies that enhance nursing support and reduce the burden on family caregivers.

#### Effective Psychosocial Intervention for Early-stage Psychosis

##### **Chien Wai Tong, PhD (KCL), FAAN**

Professor & Director, Nethersole School of Nursing, Faculty of Medicine, The Chinese University of Hong Kong, Hong Kong, China.

Time:

16:00 - 16:15

Professor Wai Tong CHIEN is Professor and Director of Nethersole School of Nursing, Faculty of Medicine, The Chinese University of Hong Kong. He is an experienced mental health researcher, evaluating various psychosocial interventions for people with mental health problems and family caregivers. Professor CHIEN received the Sigma's 2025 Hall of Fame International Nurse Researcher, Honorary Fellow of the H.K. Academy of Nursing and Midwifery in Education and Research and Outstanding Fellow of CU Medicine in 2024, and Fellowship of American Academy of Nursing in 2018. He has secured >60 competitive research grants (>HKD50,000,000) and published >300 international healthcare journal articles.

#### Fostering Well-being and Resilience in Pediatric Nursing Practice: A Collaborative Innovation Approach

##### **Chi-Wen Chen, PhD**

Professor, College of Nursing, National Yang Ming Chiao Tung University, Taiwan

Time:

16:15 - 16:30

Chi-Wen Chen is a Professor in the Department of Nursing at National Yang Ming Chiao Tung University, Taipei, Taiwan. She earned her PhD in Nursing from National Taiwan University and has extensive clinical, teaching, and research experience in pediatric nursing, child development, and family care. Her research interests include congenital heart disease, adolescent frailty, family functioning, resilience, and innovative care approaches such as bibliotherapy, virtual reality, and social robots. She has contributed to national projects, disseminated her work through peer-reviewed publications and international conferences, and remains committed to advancing nursing practice, education, and interdisciplinary collaboration.

#### Data-Driven Nursing in Cancer Survivorship: From QoL Monitoring to Precision Care

**Jin-Hee Park, PhD, RN**

Professor, College of Nursing, Ajou University, Republic of Korea

Jin-Hee Park is a Professor at Ajou University College of Nursing and Editor-in-Chief of the Journal of Korean Academy of Nursing (SCI-indexed). She earned her PhD from Yonsei University and completed the Acute Care Nurse Practitioner program at the University of Cincinnati. With over 24 years of research in chronic illness management, particularly cancer care, Dr. Park has led numerous clinical intervention studies on symptom management and quality of life. Her current work focuses on cancer-related cognitive impairment in breast cancer survivors, and she actively collaborates on survivorship care research and consultation.

#### From Evidence to Action, from Influence to Impact: How Nursing Leadership Addresses the Commercial Determinants of Health

##### Chia-Chin Lin, PhD (UW), RN, FAAN

Director of School, Alice Ho Miu Ling Nethersole Charity Foundation Professor in Nursing, Hong Kong, China

Time:

15:30 - 15:45

Professor Chia-Chin Lin is a highly influential scholar in the global nursing community. She currently serves as Director of the School of Nursing and holds the Alice Ho Miu Ling Nethersole Charity Foundation Professorship in Nursing at the University of Hong Kong. Prior to joining HKU, she was Dean of the College of Nursing at Taipei Medical University from 2011 to 2017, where she advanced international collaboration and research innovation. Her research focuses on cancer pain management, symptom control, and palliative care, with significant contributions to clinical practice and policy development. She has published approximately 300 articles in leading international journals such as JAMA Oncology, Pain, and the International Journal of Nursing Studies, and holds an H-index of 51. Since 2000, she has consistently ranked among the top 2% most cited nursing scholars worldwide. Professor Lin's academic excellence has been recognized through numerous international honors, including induction into the International Nurse Researcher Hall of Fame, Fellowship in the American Academy of Nursing, and appointments as visiting professor and advisor to various global institutions, underscoring her leadership in nursing scholarship.

#### Advancing Equity for Migrant Health: Nursing Roles in Thailand

##### Kwanjai Amnatsatsue, PhD, RN, MSc, NP

Associate Professor and Head, Department of Public Health Nursing; Chair, DrPH major in Global Health, Faculty of Public Health, Mahidol University, Thailand

Time:

#### Every Nurse a Leader: Enhancing Sepsis Care with Nurse-Led Protocols

##### **Chua Wei Ling, PhD, RN**

Assistant Professor, Alice Lee Centre for Nursing Studies (NUS Nursing), Yong Loo Lin School of Medicine, National University of Singapore, Singapore

Dr. Chua Wei Ling is an Assistant Professor at the Alice Lee Centre for Nursing Studies, National University of Singapore. A nurse academic and health services researcher, her work focuses on patient safety, simulation-based education, and workforce development. She leads and contributes to studies on nurse-driven sepsis protocols, rapid response systems in acute hospitals, post-ICU sepsis recovery, nursing competency, and nurses' well-being, while actively advancing simulation-based interprofessional education. She serves on the editorial boards of Australian Critical Care and BMC Nursing, and is an executive committee member of the Chapter of Rapid Response Systems, Society of Intensive Care Medicine, Singapore.

#### Nurse-Led Models of Care for Global Health Equity

##### **Allan Paulo Blaquera, PhDNS, PhD, RN**

Program Coordinator for Nursing, School of Nursing and Allied Health Sciences, St. Paul University Philippines, Philippines

Dr. Allan Paulo Blaquera is an educator and researcher specializing in nursing science and healthcare improvement. He developed a nurse-led healthcare model to strengthen post-stroke care in the Philippines. As a faculty member teaching PhD students in Nursing Science, he integrates philosophical foundations and evidence-based practice into nursing education. Dr. Blaquera has pitched research projects to government officials, advancing the translation of research into health policy. His research interests include stroke care, healthcare technology and nursing education. He currently serves on the Editorial Board of the Journal of Nursing Investigation.

### **Failing Your Way to Success. Learning from experience and coping with rejection in developing an academic career**

Being a successful academic requires that your performance is continually judged. Papers and grant applications are subject to peer review and rejection is common. We all know it happens, but we don't often talk about it, and it can sometimes feel that those who succeed are exceptions. As someone who may be judged a 'success', I'd like to share a few of the failures that paved my journey 'to the top', share some tips on coping with failure and (hopefully) create a safe space where participants can learn from the failures of others, and share a few of their own.

### **AI for Nursing Research: Enhancing Literature Reviews with Large Language Models**

This workshop will introduce nursing students to the application of Artificial Intelligence (AI) and Large Language Models (LLMs) in nursing research, with a focus on literature reviews. It will cover the formulation of PICOT questions, the use of AI for supporting quality appraisal, and methods of information extraction. A hands-on exercise will provide participants with practical experience in applying AI tools within the research process. The session will aim to familiarize students with emerging approaches that will enhance efficiency, accuracy, and critical appraisal skills in evidence-based nursing practice.

#### From Draft to Impact: Winning Strategies for Publishing Success

This interactive pre-conference workshop equips participants with essential strategies to publish in high-impact journals. Participants will gain insights into selecting the right journal, structuring a compelling manuscript, and navigating the peer-review process with confidence. Through practical examples and hands-on exercises, the session will highlight common pitfalls and provide actionable tips to enhance the clarity, rigor, and visibility of academic writing. The workshop is designed for early-career researchers, doctoral students, and faculty members who aspire to elevate their scholarly publications and maximize their research impact.

#### How to be an Effective and Engaging Educator

This two-hour interactive workshop, How to Be an Effective and Engaging Educator, is designed for current and future educators, particularly PhD students preparing for professional teaching roles. The workshop builds readiness and confidence to become professional educators. Participants will explore their educator identity, examine strategies to foster student learning motivation, and practice approaches to designing engaging classroom environments. They will also learn to align course objectives, activities, and assessments for meaningful impact. By the end of the workshop, participants will gain practical skills, strategies, and perspectives to grow as effective, engaging, and professional educators.

### **From Idea to Impact: Evidence-Driven Nursing Innovation**

**From Idea to Impact: Evidence-Driven Nursing Innovation** is a 2-hour interactive workshop guiding nurses to generate, refine, and test innovative ideas grounded in evidence. Participants will identify practice challenges, brainstorm creative solutions, and conduct rapid evidence scans to ensure novelty and feasibility. Using design-thinking tools, they will develop concept boards and deliver short pitches for peer feedback. Activities include problem mapping, idea generation, feasibility mapping, and rapid prototyping. The session blends brief lectures, hands-on group work, and resource sharing, equipping participants with practical tools to move promising innovations from concept toward real-world implementation in nursing practice.
